

The 7th National and International Graduate Study Conference “Thailand 4.0 Creative Innovation for Sustainable Development”
 July 21,2017 Room 602 Floor 6 At Princess Maha Chakri Sirindhon Anthropology Centre

Time	code	Name	sign	note
09.00-9.20 am.	267	Myat Thiri Nyein The Impacts of Myanmar Traditions and Customs on Violin Teaching and Learning		
09.20-09.40 am.	26	Chompunoot Putinatr A Study of Factors Affecting the Ability to Work-based Learning of Student at Panyapiwat Institute of Management		
09.40-10.00 am.	51	Nathida Rerngasettakorn The Factors Of Customer Who Choose Credit Card Or Debit Card For Payment When They Are Go Aboard		
10.00-10.20 am.	52	Tattep Sinjanakhom An Empirical Study Of The Factors Influencing Customers’ Purchase Intention Of Digital Camera		
10.20-10.40 am.	53	Warissara Vitoonphun The investigation of shoppers’ intention in purchasing online global brand.		

10.40-11.00 am.	54	Nattaphol Bangviroonrag Measuring Service Quality of Foreign and Thai Customers Toward Luxurious Shopping Malls in Bangkok Through SERVQUAL		
11.00-11.20 am.	60	Manassavee Jarurojpakorn Service provider's perception of Chinese tourist behavior		
11.20-11.40 am.	78	Rachata Dachathornvorapol The Development of a Social Media Experience-Based Instructional System in Information Technology Course for the Lower Secondary Students in Bangkok Metropolis and Surrounding Area		
11.40-12.00 am.	148	Thanakorn Uiphanit The Relationship between Computer Game Playing Behavior and Influence of the Game Playing Attitude and Game Genres Preference of Suan Sunandha Rajabhat University Undergraduate Students.		
Lunch				
13.00-13.20 pm.	300	Ramanya Wongworapitak The Effects of Drama Techniques in developing Students' Speaking Ability		

13.20-13.40 pm.	45	LIU XUEFENG Problems and difficulties of Overseas Chinese studying in Northeastern Thailand		
-----------------	----	--	--	--

The 7th National and International Graduate Study Conference “Thailand 4.0 Creative Innovation for Sustainable Development”
 July 21,2017 Multimedia Room Floor 2 At Princess Maha Chakri Sirindhon Anthropology Centre

เวลา	รหัส บทความ	ชื่อ-นามสกุล	ลายเซ็น	หมายเหตุ
09.00-9.20 am.	28	Yemane Gebremeskal Study of larvicidal efficacy and insecticide synergistic effect of Piper longum extracts against Aedes aegypti mosquitoes		
09.20-09.40 am.	81	Kudkanut Cheunwongaroon A Comparative Study of Heavy Metals Contamination in Conventional and Organic Rice		
09.40-10.00 am.	110	Priyantha Saman Wimalasena Effect of indole acetic acid produced by Klebsiella variicola C1DO on simulated drought condition for evaluating grain filling and seed weight of rice (Oryza sativa L.)		
10.00-10.20 am.	74	Supaporn Sangkert Constructed functional sheet scaffolds of coated silk fabric with silk fibroin solution for soft tissue regeneration in cleft palate surgery		

10.20-10.40 am.	196	Jutakan Thonglam Biomedical performance scaffolds based on silk fibroin films for bone tissue regeneration in maxillofacial surgery; Physical and biological performance		
10.40-11.00 am.	205	Nattawat Watcharajittanont Constructed electro-spun fibers based on thermoplastic polyurethane to design tissue engineering scaffolds; Fabrication, morphological formation		
11.00-11.20 am.	227	Pim Khererat Quantitative Analysis of Lactobacillus in Infected Root Canals of Primary Teeth		
11.20-11.40 am.	145	Atsadaporn Thangprasert Gelatin-based hybrid hydrogels as mimicked extracellular matrix scaffolds for bone healing in maxillofacial defects		
11.40-12.00 am.	278	Maemmoth Chuongsakun Wound area measurement using image processing analysis		
13.00-13.20 pm.	281	Kittipong Phetnui Effects of thickness and materials on mechanical behaviors in a sandwich structure under compression using a computational simulation		

13.20-13.40 pm.	289	Thamonwan Imerbtham Cardiac functions assessed by 2D-echocardiography in older obese adolescents.		
13.40-15.00 pm.	160	Srivipa Lerkrattanawaree Shallow Subsurface Structure from Geophysical Data in Mae On District, Chiang Mai Province		
15.00-15.20 pm.	180	Phiraphat Chaengphaniad Isolation and characterization of lytic bacteriophages for biocontrol of Staphylococcus aureus in milk and dairy product.		
15.20-15.40 pm.	191	Chudarat Watcharinrat Effect of α -Amylase Treatment on Color Formation via a Simulated Reducing Sugar-Glycine Model		
15.40-16.00 pm.	197	Saranya Manatsakarn Emissions of Major Air Pollutants from Charcoal Meat Grilling		
16.00-16.20 pm.	209	Taksorn Jirathampradhab Study of spray processing parameters and coating thickness of silica hard coating film on polymethyl methacrylate (PMMA) sheets		

16.20-16.40 pm.	299	Phanupong Amornsirichokechai Analysis of Constraint Functions for Cost Optimization of Glass Fiber Reinforced Concrete Cladding System with Steel Frame		
16.40-17.00 pm.	304	Ratthanan Ianleng Effects of Glass Fiber Content on Engineering Properties of Glass Fiber-Reinforced Concrete
